HOT team headed to Robotics World Championship

Huron Valley Schools HOT Team finished the qualifications in second place with a 9 and 3 record at last week's FIRST in Michigan State Championship. Their HOT Team's alliance with the Chimeras (Team 1684 from Lapeer) and That ONE Team (Team 4967 from Belmont) finished as DTE division quarter finalists. The HOT Team performed well, and their hard work paid off with an invitation to the FIRST Robotics World Championship in Texas.
