- **Houston, TX**

2025 Michigan State Competition

Michigan State Championship Winner Hemlock Semiconductor Division Winner Industrial Design Award Winner

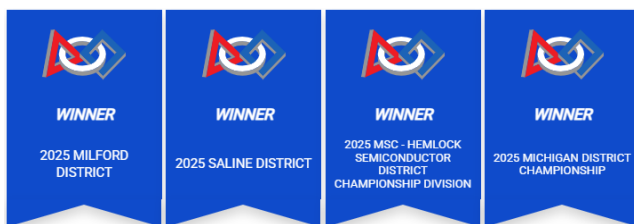

We competed at the FIRST in Michigan State Competition held at Saginaw State University from April 3 to April 5, 2025 in the Hemlock Semiconductor Division. We were the #1 seed and Captain of Alliance 1 in the division and ended with 15 wins, 3 losses, and 0 ties. We invited Stryke Force 2767 and Flurb 5843 to join our alliance and together we secured the win in our division.

We then advanced to the FIRST in Michigan State Championship field to compete against the winners from the other three fields; Rush 27, Byting Bulldogs 3539, and Hollywood 7211 from the DTE Division, Strike Zone 5460, Average Joes 3620, and Automation Nation 2960 from the Consumers Energy Division, and Enigma Robotics 2075, EngiNERDs 2337, and Demons Robotics 858 from the Aptiv Division. There we achieved a record of 4 wins, 1 loss, and 0 ties, taking home the championship win in the tiebreaker match with a score of 228 - 142.

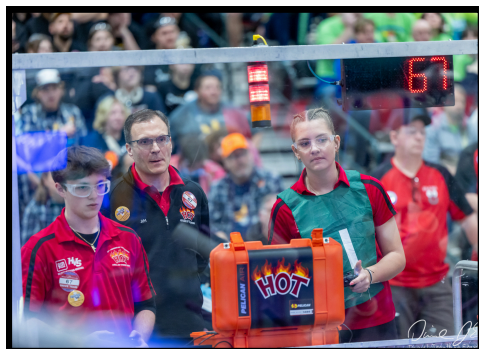

We were also presented with the Industrial Design Award sponsored by General Motors which celebrates the team that demonstrates industrial design principles, striking a balance between form, function, and aesthetics.

We are thrilled to have accomplished the championship win with our alliance partners, and we will be heading to Houston, TX April 16 - 19, 2025 to compete in the FIRST World Championship.
